Contact information modification service is extended to Cultural Affairs Bureau

The Identification Services Bureau (DSI) cooperates with the Cultural Affairs Bureau (IC) to extend the coverage of contact information modification service, which allows citizens to update their address and contact information at various government departments at one time.

Starting from 8 November 2018, once Macao residents update their contact information of their resident identity card record and authorize DSI to transfer relevant data, the new contact will be provided to IC for the use of updating the information related to the registration of readers of the Macao Public Library.

The operation of the self-service kiosk is simple and convenient. Eligible applicants are required to follow the system instructions to verify their identity with the electronic identity card, input information and provide mobile phone number in Macao to complete the application. After successful submission, the application will be handled within three working days after the date of application.

Moreover, the Social Security Fund, the Pension Fund and the Marine and Water Bureau also participate to provide the above-mentioned service. At present, there are 70 integrated self-service kiosks in 43 locations in Macao, Taipa and Coloane, providing self-services of various government departments. For details of the function and location of the self-service kiosk, please visit DSI's website (www.dsi.gov.mo/kiosk_e.jsp).
